once you're out

stay out

know the steps

Step 1

Make and memorize
your Fire Escape Plan

Step 2

Know two safe ways
of getting out!

Step 3

Test your smoke alarm
with your parents or
guardian every month

Step 4

Know your safe meeting place

Step 5

Always practice and know
the steps!

Use the Fire Escape
Plan on the next page
to make your plan!

family checklist

St. Catharines Fire Services wants you to find ways to get out of your home safely in case of a fire.

here's **how**

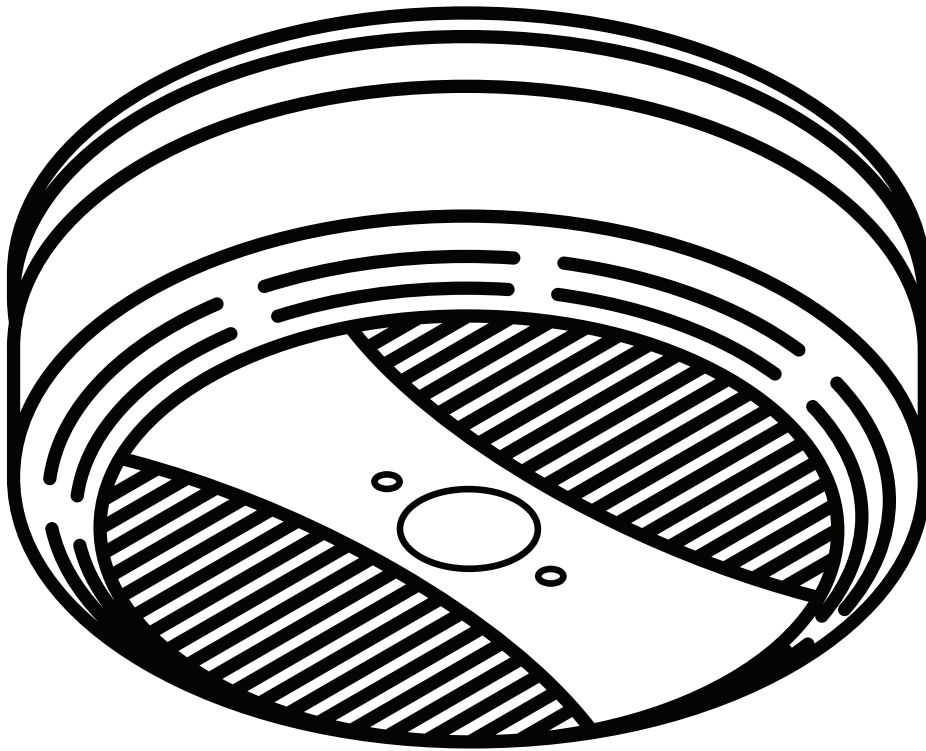

- Use the grid to draw a map of your home. Don't forget to include doors and windows.
- Find and draw safe ways out of every room.
- Practice opening windows; if there are screens in the window, practice removing them. Make sure that any exit leads to the ground, a roof, a porch, a fire escape, or safe space.
- Post Exit signs over all safe exits in your home.
- If you live in an apartment, practice using the stairs. Never use an elevator during a fire.
- Choose a meeting place outside your home where everyone can meet. Pick a place close to your home that is out of danger. Add the meeting place to your map.
- Use your fire escape map to practice a fire drill. Make sure everyone knows how to get out of your home and where to meet. Practice your drill at least twice a year.
- If your exits are blocked, put blankets or clothes in the cracks around the doors. Call 9-1-1 and let them know you cannot get out of your apartment or home. Open the window and signal where you are by hanging blankets out the window or calling to firefighters or neighbors outside.

Help Timmy find his way out of this smoke filled house and get to his safe meeting place!
Just like you learned, there should be 2 escape routes from his room!

Safe Meeting Place!

Don't forget to test your smoke alarms each month!
