

Ontario Street Corridor

Secondary Plan Study

The following questions are provided to provoke thought on a number of key project considerations.

1. Do you have any needs or services that are not currently met by the Corridor?
2. Do you have an idea of preferred built form, density, height, and land uses for the Corridor?
3. Are there examples within the City or beyond that you would like to experience here?
4. What modes of transportation do you use the most when travelling to, from and within the Corridor?
5. Currently, is there a mode of transportation you do not use as much as you would like? If so, what are the barriers preventing you from doing so?
6. What brings you to the Corridor?
7. How would you describe the Corridor to someone who has never been there?
8. What are the negative/positive characteristics of the Corridor that impact your enjoyment and use?
9. What observations do you have on how the Corridor currently functions?
10. What impacts of climate change have you experienced or witnessed within the Corridor?
11. What features within the Corridor would you like to see celebrated or preserved?
12. Are there any stories or memories of the Corridor that you would like to share?
