The Water Cycle

Find your way through the water cycle. Match the number from the diagram with the action on the list.

_____ **Precipitation** falls to the earth in the form of rain or snow.

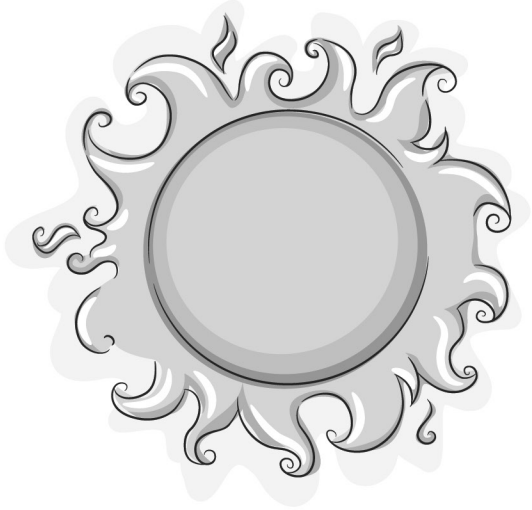

_____ **Condensation** forms in the atmosphere.

_____ **Evaporation** forms when water from the surface of plants, or animals changes into water vapour.

_____ **Infiltration** is when water seeps into the ground and enters an aquifer.

_____ **Collection** is when rain or snow gather together in places like lakes, rivers and ponds.

Spot the Difference

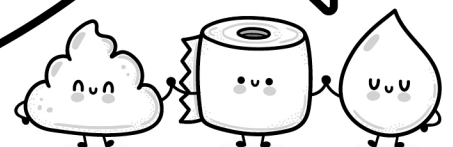

Find the five differences between the two pictures, to help keep our environment clean and save water.

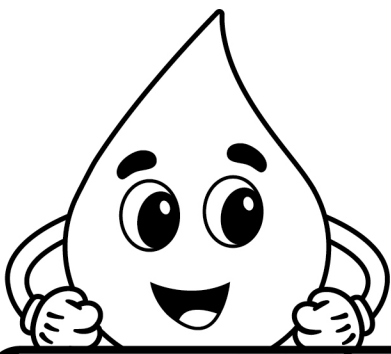

**Only flush
the 3 P's:
Pee, Poo and
Toilet Paper**

Save or Waste

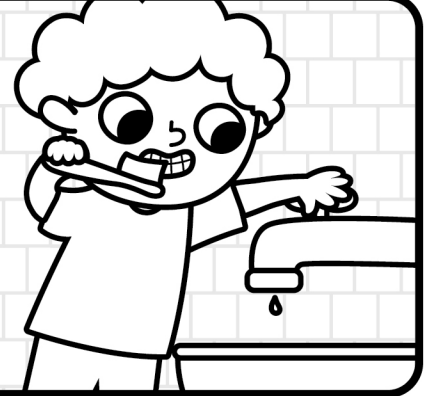

Circle **SAVE** if the action saves water or circle **WASTE** if the action wastes water.

**SAVE
or
WASTE**

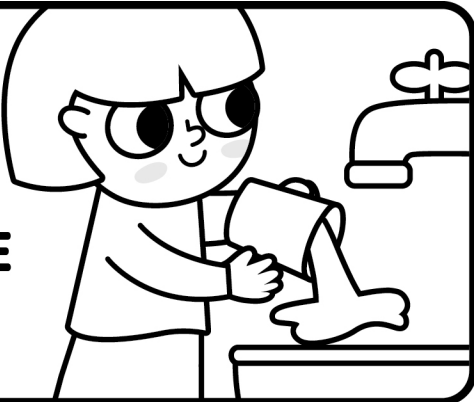

Keeping the water running while you brush your teeth.

**SAVE
or
WASTE**

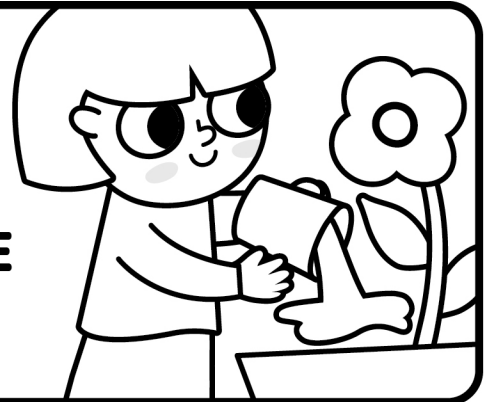

Turning the water off while you brush your teeth.

**SAVE
or
WASTE**

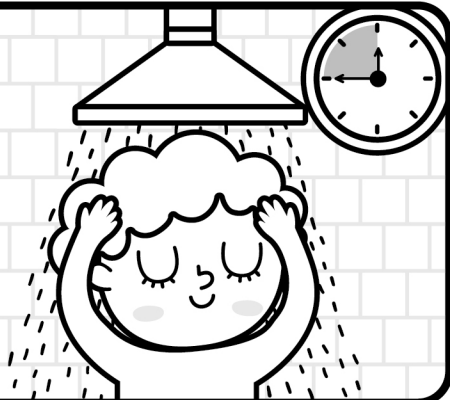

Pouring a full glass of water down the sink.

**SAVE
or
WASTE**

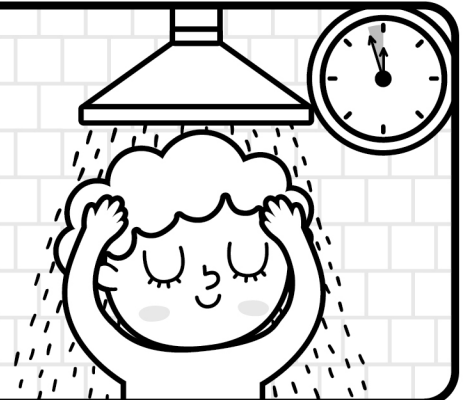

Pouring extra water on a plant.

**SAVE
or
WASTE**

Taking a long shower.

**SAVE
or
WASTE**

Taking a short shower.
